### Certified Software

"NETFILE-certified" tax preparation software or "NETFILE-certified" tax preparation Web application means that the developer of the tax preparation software has gone through a process with the Canada Revenue Agency (CRA) to verify that their product is compatible with the CRA NETFILE electronic tax filing service. This does not mean that we endorse or recommend any product over another, nor does the CRA look at spelling or grammatical errors within the tax preparation software packages or Web applications.

**Certified software programs (where some restrictions and/or exclusions may apply)**

The NETFILE-certified software products are listed below by the **income threshold** for the free offerings. When the income threshold is the same, they are listed alphabetically by product name.

**Certified Software for the 2012 NETFILE Program (2011 tax return)**

Product	Platform	Restrictions / Exclusions
<a href="#">StuTax</a>	Windows	<a href="#">More details</a>

Download StudioTax Note for Windows 10 users In the unlikely case that you run into installation issues or StudioTax fails to save your return, the most likely root cause is the Windows 10 Controlled folder access. [Download Movie Upin Ipin 2012](#)

The screenshot shows the CRA website's 'Certified Software' page. It includes a navigation menu at the top with links for Français, Home, Contact Us, Help, Search, and Canada.gc.ca. The main content area is titled 'Certified Software' and explains that 'NETFILE-certified' tax preparation software or Web applications have been verified by the CRA. Below this, it lists 'Certified software programs (where some restrictions and/or exclusions may apply)' and provides a table of 'Certified Software for the 2012 NETFILE Program (2011 tax return)'. The table has columns for Product, Platform, and Restrictions / Exclusions. A 'GoToTo.com' watermark is visible over the table.

Product	Platform	Restrictions / Exclusions
